Community Reinvestment Act Public File

Updated: April 1, 2024

Written Public Comments and Responses

Written comments received from the public for the current year and each of the prior two calendar years relating to the Bank's performance of helping meet community credit needs and responses to these comments by the Bank.

Year 2024:

Q1:

No written comments regarding CRA performance received by Security Bank of Kansas City during the calendar quarter ending 3/31/2024.

Year 2023:

No written comments regarding CRA performance received by Security Bank of Kansas City during the calendar year 2023

Year 2022:

No written comments regarding CRA performance received by Security Bank of Kansas City during the calendar year 2022.

Year 2021:

No written comments regarding CRA performance received by Security Bank of Kansas City during the calendar year to date 2021.

This document is an evaluation of this institution's record of meeting the credit needs of its entire community, including low- and moderate-income neighborhoods, consistent with safe and sound operation of the institution. This evaluation is not, nor should it be construed as, an assessment of the financial condition of this institution. The rating assigned to this institution does not represent an analysis, conclusion, or opinion of the federal financial supervisory agency concerning the safety and soundness of this financial institution.

INSTITUTION RATING

INSTITUTION'S CRA RATING: This institution is rated **Satisfactory**.

An institution in this group has a satisfactory record of helping to meet the credit needs of its assessment area, including low- and moderate-income neighborhoods, in a manner consistent with its resources and capabilities.

PERFORMANCE LEVELS	PERFORMANCE TESTS		
	Lending Test*	Investment Test	Service Test
Outstanding			
High Satisfactory	X		
Low Satisfactory		X	X
Needs to Improve			
Substantial Noncompliance			
* The Lending Test is weighted more heavily than the Investment and Service Tests when arriving at an overall rating.			

The Lending Test is rated **High Satisfactory.**

- Lending levels reflect adequate responsiveness to assessment area credit needs.
- A substantial majority of loans are made in the institution's assessment areas.
- The geographic distribution of loans reflects good penetration throughout the assessment areas.
- The distribution of borrowers reflects, given the product lines offered by the institution, good penetration among business customers of different sizes and retail customers of different income levels.
- The institution has made an adequate level of community development loans.
- The institution makes limited use of innovative and/or flexible lending practices in order to serve assessment area credit needs.

The Investment Test is rated Low Satisfactory.

- The institution has an adequate level of qualified community development investments and grants, although rarely in a leadership position, particularly those that are not routinely provided by private investors.
- The institution exhibits adequate responsiveness to credit and community economic development needs.
- The institution rarely uses innovative and/or complex investments to support community development initiatives.

The Service Test is rated Low Satisfactory.

- Delivery systems are accessible to essentially all portions of the institution's assessment areas.
- To the extent changes have been made, the institution's opening and closing of branches has generally not adversely affected the accessibility of its delivery systems, particularly in low- and moderate-income geographies and/or to low- and moderate-income individuals.
- Services (including, where appropriate, business hours) do not vary in a way that inconveniences certain portions of the assessment areas, particularly low- and moderate-income geographies and/or individuals.
- The institution provides a limited level of community development services.

DESCRIPTION OF INSTITUTION

Background

Security Bank of Kansas City (SBKC) is a full-service financial institution headquartered in Kansas City, Kansas, and is wholly-owned by Valley View Bancshares, Inc., a one-bank holding company located in Overland Park, Kansas.

The bank received a Satisfactory rating at the previous FDIC Performance Evaluation dated June 5, 2017, using Intermediate Small Institution Examination Procedures. Although there was no merger or acquisition activity during the review period, the bank merged with several institutions just prior to the previous evaluation. The merger activity resulted in a substantial increase in assets as well as a new Missouri Assessment Area. However, because the merger activity took place just prior to the previous evaluation, the new assessment area was not reviewed, and the bank was still evaluated using Intermediate Small Institution Examination Procedures.

Operations

SBKC operates 42 branch locations in Kansas and Missouri in the Kansas City, MO-KS Multistate Metropolitan Statistical Area (MSA) and the St. Joseph, MO-KS Multistate MSA. SBKC stations an ATM at all branch locations, with the exception of the Tiffany Springs

Parkway branch. In addition, the bank maintains two stand-alone ATMs: one in Wyandotte County and one in Buchanan County.

SBKC offers traditional loan products including commercial, home mortgage, agricultural, and consumer loans, while maintaining a primary focus on commercial loans. Deposit services include checking accounts, savings accounts, certificates of deposit, and individual retirement accounts. Investment and trust services are also offered through the bank's affiliates.

Ability and Capacity

Assets totaled \$3.4 billion as of June 30, 2020. Loans totaled approximately \$1.8 billion and deposits totaled approximately \$2.7 billion. The loan portfolio is illustrated in the following table.

Loan Portfolio Distribution as of June 30, 2020		
Loan Category	\$(000s)	%
Construction, Land Development, and Other Land Loans	387,701	21.5
Secured by Farmland	22,126	1.2
Secured by 1-4 Family Residential Properties	97,002	5.4
Secured by Multi-family (5 or more) Residential Properties	230,120	12.7
Secured by Non-farm Non-Residential Properties	723,815	40.1
Total Real Estate Loans	1,460,764	80.9
Commercial and Industrial Loans	273,417	15.1
Agricultural Production and Other Loans to Farmers	1,053	0.1
Consumer	11,053	0.6
Obligations of States and Political Subdivisions in the United States	11,387	0.6
Other Loans	10,379	0.6
Lease Financing Receivables (net of unearned income)	37,472	2.1
Less: Unearned Income	-	0.0
Total Loans	1,805,525	100.0
<i>Source: Reports of Condition and Income</i>		

SBKC's lending focus and product mix remained consistent throughout the evaluation period. The Reports of Condition as of June 30, 2020, indicates commercial real estate and commercial and industrial lending totaled a combined 55.1 percent of the loan portfolio, with a secondary focus on construction, land development, and other land-secured lending totaling 21.5 percent.

SBKC also originates and sells loans on the secondary market in accordance with investor guidelines. These loans are not reflected in the above portfolio composition. From the beginning of 2018 through June 30, 2020, SBKC originated 185 secondary market home mortgage loans totaling approximately \$28.4 million.

Examiners did not identify any financial, legal, or other impediments that affect the bank's ability to meet assessment area credit needs.

DESCRIPTION OF ASSESSMENT AREAS

The CRA requires each financial institution to define one or more assessment areas within which its CRA performance will be evaluated. The bank has designated two assessment areas within Kansas and Missouri that make up the two rated areas for the evaluation: the Kansas City Multi-state MSA (KCMSA) and the State of Missouri. The great majority of SBKC's operations occur in the eight counties within the KCMSA Assessment Area. Alternatively, the bank only operates out of Buchanan County in the St. Joseph Assessment Area (hereafter referred to as the Missouri Assessment Area). Although the Missouri Assessment Area has not changed since the previous evaluation, the State of Missouri is a newly rated area for the bank. Please see the full-scope evaluations for more detailed information regarding each respective assessment area.

SCOPE OF EVALUATION

General Information

This evaluation covers the period from the prior evaluation dated June 5, 2017, to the current evaluation dated September 29, 2020. Examiners used the Interagency Large Institution Examination Procedures to evaluate SBKC's CRA performance under the following three tests: the Lending Test, the Investment Test, and the Service Test. The criteria for the three tests are outlined in the Appendices later in this evaluation.

The tests are used to determine both the bank's overall rating as well as its ratings in the KCMSA and the Missouri assessment areas. Banks must achieve at least a Low Satisfactory rating under the Lending Test to obtain an overall Satisfactory rating. More weight was placed on conclusions within the KCMSA rated area as it holds a majority of the bank's lending, deposits, and branches. This evaluation does not include any lending activity performed by affiliates.

Activities Reviewed

Examiners determined that the bank's primary product lines include commercial and home mortgage lending. This conclusion considered the bank's business strategy and the number and dollar volume of loans originated during the evaluation period. Agriculture and consumer loans do not represent major product lines and provide no material support for conclusions or ratings. As such, they are not presented in the evaluation. When arriving at overall conclusions for the Lending Test, examiners placed more emphasis on small business lending than on home mortgage lending.

SBKC collected and reported CRA small business and small farm data in 2019: the first year it was required to do so after passing the large bank threshold on January 1, 2017. Examiners therefore analyzed the bank's 2019 small business lending performance. Additionally, although SBKC did not collect or report small business data prior to 2019, considering its size and status as a large bank, examiners used bank records to assess 2018 small business lending as well. Therefore, both 2018 and 2019 small business lending performance is presented in the current evaluation. Furthermore, examiners reviewed the universe of reported Home Mortgage Disclosure Act (HMDA) loan activity for calendar years 2017, 2018, and 2019 for the Lending

Test. However, only HMDA data for 2019 is included within this evaluation for the Geographic Distribution and Borrower Profile criteria, as that is the most recent year with available aggregate data.

Examiners noted within the analyses where bank performance from years prior to 2019 varied or significantly impacted conclusions. Unless otherwise noted, the analysis of years prior to 2019 did not identify trends that would materially affect conclusions. The analyses primarily focused on the comparison between SBKC's performance and the aggregate lending performance of large bank lenders. In addition, examiners considered demographic data as reflected by the 2015 American Community Survey (ACS) for home mortgage lending and D&B data for the relevant year of small business lending reviewed. Finally, community development lending, qualified investments, and community development services were considered from the prior evaluation date of June 5, 2017, through the current evaluation date.

CONCLUSIONS ON PERFORMANCE CRITERIA

LENDING TEST

SBKC demonstrated high satisfactory performance under the Lending Test. Conclusions regarding the bank's overall lending performance are consistent with the conclusions for the KCMSA. Although the State of Missouri was rated needs to improve for the Lending Test, this rated area was weighted less heavily when determining overall conclusions.

Lending Activity

Lending levels reflect adequate responsiveness to assessment areas' credit needs. Overall, SBKC continues to be an active lender of small business and home mortgage loans in its assessment areas. This conclusion is primarily derived from adequate responsiveness to credit needs in the KCMSA, whereas lending levels in the Missouri Assessment Area reflect poor responsiveness. Examiners evaluated small business and home mortgage lending activity against the bank's deposit market share in each assessment area. Additionally, home mortgage lending was compared against the aggregate lending performance of all large lenders within each assessment area. However, small business market data was yet not available for 2019, which is the only year of SBKC reported small business data. Therefore, examiners compared small business lending in 2018 against the market performance of large lenders as context for the bank's performance. Please see each respective full-scope evaluation for more details on the bank's lending activity performance.

Assessment Area Concentration

A substantial majority of small business and home mortgage loans are made in SBKC's assessment areas. Small business lending in the assessment areas trended upwards from 2018 to 2019 by both number and dollar. Home mortgage performance by dollar, while still adequate, occurred within the assessment areas at a much lower average rate. This is primarily due to a few large dollar home mortgage loans outside of the assessment areas, skewing performance downwards in this criterion. Nonetheless, SBKC still makes a substantial majority of home mortgage lending within its assessment areas by number, displaying a positive trend each year

from 2017 to 2019. The following table shows details of the bank's assessment area concentration performance throughout the review period.

Lending Inside and Outside of the Assessment Areas										
Loan Category	Number of Loans				Total #	Dollar Amount of Loans \$(000s)				Total \$(000s)
	Inside		Outside			Inside		Outside		
	#	%	#	%		\$	%	\$	%	
Small Business										
2018	426	92.6	34	7.4	460	90,839	88.6	11,745	11.5	102,584
2019	382	93.2	28	6.8	410	91,157	90.4	9,666	9.6	100,823
Subtotal	808	92.9	62	7.1	870	181,996	89.5	21,411	10.5	203,407
Home Mortgage										
2017	158	85.9	26	14.1	184	108,196	61.5	67,649	38.5	175,845
2018	124	88.6	16	11.4	140	83,693	55.2	67,793	44.8	151,486
2019	105	90.5	11	9.5	116	71,731	76.8	21,693	23.2	93,424

Source: Bank Data Due to rounding, totals may not equal 100.0%										

Geographic Distribution

Overall, the geographic distribution of loans reflects excellent penetration throughout the assessment area. Conclusions regarding the bank's overall lending performance were based on performance in the KCMSA. Due to the limited lending activity in the Missouri Assessment Area, this criterion was not evaluated for the State of Missouri. Emphasis under the Geographic Distribution criterion was placed on the bank's record of lending in low- and moderate-income census tracts. Additionally, examiners reviewed only those loans extended within the assessment areas to perform this analysis. A complete discussion of the bank's geographic distribution lending performance can be found in the full-scope sections of this evaluation.

Borrower Profile

Overall, the distribution of borrowers reflects good penetration among business customers of different sizes and retail customers of different income levels. Conclusions regarding the bank's overall lending performance were based on performance in the KCMSA. Due to the limited lending activity in the Missouri Assessment Area, this criterion was not evaluated for the State of Missouri. Examiners focused on the percentage by number of small business loans to businesses with gross annual revenues of \$1 million or less and number of home mortgage loans to low- and moderate-income borrowers. Examiners reviewed only those loans extended within the assessment areas to perform this analysis. A complete discussion of the bank's borrower profile lending performance can be found in the separate assessment area sections of this evaluation.

Innovative or Flexible Lending Practices

SBKC makes limited use of innovative and/or flexible lending practices in order to serve assessment area credit needs. Through guaranteed loan programs provided by the Small

Business Administration (SBA), SBKC originated six loans for \$5.7 million for small businesses who might not otherwise qualify for credit. The bank also established a program with the local Jewish Federation where portions of the Federation's deposit account could be used as guarantees on loans for members with credit problems that are unable to obtain traditional financing elsewhere. The bank originated 12 such loans for \$45 thousand during the review period.

In addition, the bank originated 1,081 small business loans for \$113 million through the SBA's Paycheck Protection Program (PPP) that were considered examples of flexible underwriting due to unique financial strains on businesses and their employees as a result of the Coronavirus pandemic. These loans will be reported as small business loans in 2020, but have been given positive qualitative consideration in this evaluation. SBKC also received qualitative credit by providing flexibility in allowing for loan extensions and modifications to its existing borrowers affected by the Coronavirus pandemic. However, quantitative credit cannot be given since tracking was not completed for these allowances.

Community Development Loans

SBKC has made an adequate level of community development loans. This performance is consistent with the performance in the KCMSA, which received the most weight when determining overall conclusions. Alternatively, the bank's performance in the State of Missouri was inconsistent with the overall conclusion, as the bank did not make any community development loans in the area.

During the review period, the bank originated or purchased 94 community development loans totaling \$88.5 million, all of which were located in the KCMSA. Community development lending activity includes 73 SBA PPP loans totaling approximately \$27.5 million, all originated in 2020. These loans helped to promote economic development by financing small businesses as they struggle with the impact of the Coronavirus pandemic. Only PPP loans that did not meet the small business loan definition were considered under this criterion.

SBKC's overall volume of community development loans equates to 5.0 percent of net loans and 2.6 percent of total assets as of June 30, 2020, and represents a decrease in volume since the prior evaluation. Similarly-situated institutions have ratios of community development loans to net loans that range from 3.5 percent to 16.1 percent and community development loans to total assets that range from 2.7 percent to 10.8 percent. The bank's community development loans to net loans and community development loans to total asset ratios are comparable to the lower range of ratios for similarly-situated institutions, including recently evaluated institutions with PPP lending.

The following tables show the breakdown of the bank's community development loans by rated area, qualifying category, and year. Additional details regarding the bank's community development lending activities are described in the full-scope evaluations in each rated area.

Community Development Lending by Assessment Area										
Assessment Area	Affordable Housing		Community Services		Economic Development		Revitalize or Stabilize		Totals

Total	14	23,864	-	-	74	38,418	6	26,188	94	88,470
<i>Source: Bank Records</i>										

INVESTMENT TEST

SBKC demonstrated low satisfactory performance under the Investment Test. While conclusions in the State of Missouri need to improve, conclusions are consistent with the performance for the KCMSA, the more heavily weighted area.

Investment and Grant Activity

The bank has an overall adequate level of qualified community development investments and grants, although rarely in a leadership position, particularly those that are not routinely provided by private investors. During the evaluation period, SBKC received credit for \$51.6 million of qualified investment activity and \$116 thousand of qualified community development donations. Investment activity has increased compared to the prior evaluation when the bank received credit for \$27.7 million in investment and grant activity.

SBKC's qualified investments represented 5.7 percent of the bank's total securities and 1.5 percent of total assets, as of June 30, 2020. The bank's ratios compare approximately in-line with the ratios of similarly-situated institutions, whose qualified investments to total securities ranged from 3.4 to 20.8 percent and whose qualified investments to total assets ratios ranged from 0.8 to 3.7 percent. However, the bank's ratios have decreased since the prior evaluation when qualified investments and donations represented 15.7 percent of total securities and 3.5 percent of total assets.

The following table details the bank's qualified investments by assessment area. The majority of investment activity benefitted the KCMSA. The bank did not have any investment or grant

activity at the broader regional or state level. Further details regarding qualified investments are provided in the discussion of the bank's performance in each full-scope evaluation.

Qualified Investments by Assessment Area

<i>Source: Bank Records</i>										

Responsiveness to Credit and Community Development Needs

The institution exhibits adequate responsiveness to credit and community economic development needs. The bank's investment activity in the revitalization and/or stabilization of low- and moderate-income geographies supports this conclusion. Please refer to each respective full-scope evaluation for more details.

Community Development Initiatives

The institution rarely uses innovative and/or complex investments to support community development initiatives. The investments purchased during the evaluation period or held from a prior period are routinely provided by private investors and do not evidence innovation or complexity.

SERVICE TEST

SBKC demonstrated low satisfactory performance under the Service Test. While the bank's performance in the State of Missouri needs to improve, the bank's performance for the KCMSA, the more heavily weighted area, is consistent with the overall institution performance.

Accessibility of Delivery Systems

SBKC's delivery systems are accessible to essentially all portions of its assessment areas. The bank's service delivery systems include 42 traditional retail banking offices and 43 ATMs, including 2 stand-alone ATMs. The following table shows the overall distribution of branches and ATMs by geography income levels and population.

Branch and ATM Distribution by Geography Income Level								
Tract Income Level	Census Tracts		Population		Branches		ATMs	
	#	%	#	%	#	%	#	%
Low	79	15.3	181,556	9.2	4	9.5	5	11.6
Moderate	116	22.4	427,255	21.7	5	11.9	5	11.6
Middle	166	32.0	722,303	36.8	18	42.9	18	41.9
Upper	138	26.6	628,414	32.0	15	35.7	15	34.9
NA	19	3.7	5,310	0.3	0	0.0	0	0.0
Total	518	100.0	1,964,838	100.0	42	100.00	43	100.0
<i>Source: 2015 ACS Data & Bank Records</i>								

In addition to its physical branches and ATMs, the bank offers alternate delivery systems to enhance accessibility to financial services, including electronic delivery systems such as mobile and internet banking. Overall, the delivery systems are accessible to the bank's geographies and individuals of different income levels in its assessment areas. Additional details on the bank's delivery systems are available in each respective full-scope evaluation.

Changes in Branch Locations

To the extent changes have been made, SBKC's opening and closing of branches has generally not adversely affected the accessibility of its delivery systems, particularly in low- and moderate-income geographies and/or to low- and moderate-income individuals. During the evaluation period, the bank opened one branch and closed two branches in the KCMSA. Additional details on the bank's changes in branch locations are available in each respective full-scope evaluation.

Reasonableness of Business Hours and Services

Services, including business hours, do not vary in a way that inconveniences certain portions of the assessment areas, particularly low- and moderate-income geographies and/or individuals. Further, branch hours and services are consistent throughout the assessment areas.

Nearly all offices offer extended hours through drive-up windows or weekend hours on Saturday. The bank also offers a wide variety of deposit products and banking services at full-service office locations. In addition, while not present at all locations, lending officers are mobile and available to customers across the entire assessment area.

Community Development Services

SBKC provides a limited level of community development services. The bank's community development services were not considered innovative or flexible. The bank's 23 community development services compared unfavorably to similarly-situated large institutions, which reported providing technical or financial services between 85 and 289 times during recent

evaluation periods. The overall number of community development services decreased from the 48 services noted at the prior evaluation when the bank was evaluated as an intermediate small bank. The following tables detail the bank's qualified community development services by assessment area and activity year. Further details regarding qualified community development services are provided in the discussion of the bank's performance in each full-scope evaluation.

Community Development Services by Assessment Area					
Assessment Area	Affordable Housing	Community Services	Economic Development	Revitalize or Stabilize	Totals

DISCRIMINATORY OR OTHER ILLEGAL CREDIT PRACTICES REVIEW

Examiners reviewed the bank's compliance with the laws relating to discrimination and other illegal credit practices, including the Fair Housing Act and the Equal Credit Opportunity Act. No discriminatory or other credit practices were identified during the review.

KANSAS CITY MULTISTATE MSA

CRA RATING FOR KCMSA: SATISFACTORY

The Lending Test is rated: High Satisfactory

The Investment Test is rated: Low Satisfactory

The Service Test is rated: Low Satisfactory

DESCRIPTION OF INSTITUTION'S OPERATIONS IN KCMSA

The KCMSA Assessment Area includes the entireties of Johnson, Linn, Miami, and Wyandotte counties in Kansas, and Cass, Clay, Jackson, and Platte counties in Missouri. All counties are in the Kansas City MO-KS multistate MSA. Since the previous evaluation, the bank removed Franklin County, Kansas from this assessment area. The bank operates 39 branches and ATMs in this area, with branches in Johnson, Miami, Wyandotte, Clay, Jackson, and Platte counties.

Economic and Demographic Data

Based on 2015 ACS data, the KCMSA Assessment Area is comprised of 493 census tracts: 78 low-, 109 moderate-, 154 middle-, 133 upper-income, and 19 tracts with no income designation. The following table illustrates select demographic characteristics of the assessment area.

Demographic Information of the Assessment Area						
Assessment Area: KCMSA						
Demographic Characteristics	#	Low % of #	Moderate % of #	Middle % of #	Upper % of #	NA* % of #
Geographies (Census Tracts)	493	15.8	22.1	31.2	27.0	3.9

Families Below Poverty Level		9.1%	Median Gross Rent			\$858

Source: 2015 ACS and 2020 D&B Data; (*) The NA category consists of geographies that have not been assigned an income classification.

According to 2020 D&B data, service industries represent the largest portion of businesses in the assessment area at 42.4 percent, followed by retail trade at 13.7 percent and non-classifiable establishments at 12.1 percent. In addition, 63.7 percent of area businesses have four or fewer employees, and 88.0 percent operate from a single location. According to Moody's, the KCMSA is currently in recession due to the Coronavirus pandemic.

Based on data reported by the Bureau of Labor Statistics, the unemployment rates throughout the KCMSA either improved or stayed generally consistent during the review period. With the exception of Wyandotte County and Linn County, which trailed marginally, all counties compared favorably to the national average each year of the review period. However, unemployment rates for all counties in the KCMSA increased significantly in 2020 due to the effects of the Coronavirus pandemic. As of July 2020, the monthly unemployment rates for the counties in the KCMSA ranged from a low of 6.2 percent (Cass County) to a high of 10.6 percent (Jackson County).

Examiners used 2017-2019 FFIEC-updated median family income figures for the Kansas City, MO-KS multistate MSA to analyze home mortgage loans under the Borrower Profile criterion. The following table presents the low-, moderate-, middle-, and upper-income categories.

Median Family Income Ranges				
Median Family Incomes	Low <50%	Moderate 50% to <80%	Middle 80% to <120%	Upper ≥120%
Kansas City, MO-KS MSA Median Family Income				
2017 (\$74,600)	<\$37,300	\$37,300 to <\$59,680	\$59,680 to <\$89,520	≥\$89,520
2018 (\$79,900)	<\$39,950	\$39,950 to <\$63,920	\$63,920 to <\$95,880	≥\$95,880
2019 (\$82,400)	<\$41,200	\$41,200 to <\$65,920	\$65,920 to <\$98,880	≥\$98,880
Source: FFIEC				

Competition

There is a high level of competition for financial services in the KCMSA. According to 2019 FDIC Deposit Market Share data, 99 financial institutions operate 609 branches within the assessment area. Of these institutions, SBKC ranked 7th in deposit market share with 3.8 percent of area deposits. In addition, a total of 636 lenders reported 81,778 residential mortgage loans originated or purchased in the KCMSA in 2019. SBKC ranked 107th out of this group of lenders with a market share of 0.1 percent.

Community Contact

Examiners reviewed an existing community contact conducted prior to the Coronavirus pandemic in early January 2020 with a representative from a community development organization that focused on a portion of the assessment area. Examiners considered the information provided by this community contact in analyzing the institution's CRA performance. The contact expressed a continued need for affordable housing in the area. The contact also opined on how low average incomes, increasing demand for housing assistance, and a lack of mixed-income rentals compound the affordable housing challenges of the area. The contact did

not express views on the broader economy or the needs of the community outside of the housing space.

Credit and Community Development Needs and Opportunities

Considering information from the community contact and demographic and economic data, examiners determined that small business and home mortgage loans represent primary credit needs in the assessment area. Opportunities exist for originating such loans, as indicated by the percentages of small businesses and families in the assessment area, and the growing population in general. In addition, community development needs include affordable housing, economic development, and revitalization and/or stabilization, especially now considering the impact of the Coronavirus pandemic.

SCOPE OF EVALUATION – KCMSA

Examiners evaluated the bank's CRA performance for the KCMSA through a full-scope review of small business and home mortgage lending. This assessment area represents the largest deposit and lending volume in terms of the assessment areas reviewed and therefore received the most weight in the evaluation.

CONCLUSIONS ON PERFORMANCE CRITERIA IN KCMSA

LENDING TEST

SBKC demonstrated high satisfactory performance under the Lending Test in the KCMSA Assessment Area. The bank's Geographic Distribution and Borrower Profile performance primarily support this conclusion.

Lending Activity

SBKC's lending activity in the KCMSA reflects adequate responsiveness to assessment area credit needs. In 2019, the bank ranked 107th with 0.39 percent market share in the area for home mortgage loans, which trails the bank's deposit market share for the same year of 4.0 percent. Although the bank did not report 2018 small business loans, examiners found the bank's small business performance was comparable with the large bank lender ranked 16th who had 1.1% of the market share. In 2018, SBKC held 4.4 percent of the deposit market share. Additional consideration was given due to the extremely saturated market of financial institutions. Overall, SBKC's lending level in the KCMSA shows adequate responsiveness in both small business and home mortgage lending within a competitive market.

Geographic Distribution

The geographic distribution of loans reflects excellent penetration throughout the KCMSA. The bank's small business lending performance supports this conclusion.

Small Business Loans

As shown in the following table, the geographic distribution of small business loans reflects excellent penetration throughout the assessment area. The bank's lending performance in low- and moderate-income tracts exceeded the corresponding demographic and aggregate data in both 2018 and 2019.

Geographic Distribution of Small Business Loans						
Assessment Area: KCMSA						
Tract Income Level	% of Businesses	Aggregate Performance % of #	#	%	\$(000s)	%
Low						
2018	7.0	6.7	45	10.6	8,759	9.7

<i>Source: 2018 & 2019 D&B Data; Bank Data; 2018 CRA Aggregate Data, "--" data not available. Due to rounding, totals may not equal 100.0%</i>						

Home Mortgage Loans

As shown in the following table, the geographic distribution of home mortgage loans reflects good penetration throughout the assessment area. Although the bank's lending performance in low-income census tracts marginally trailed the aggregate data, performance in moderate-income census tracts significantly exceeded the aggregate. Additionally, the bank's overall performance from 2017 and 2018 compared favorably to corresponding aggregate data.

Geographic Distribution of Home Mortgage Loans						
Assessment Area: KCMSA						
Tract Income Level	% of Owner-Occupied Housing Units	Aggregate Performance % of #	#	%	\$(000s)	%
Low						
2019	6.0	2.8	2	2.0	160	0.2

Borrower Profile

The distribution of borrowers reflects good penetration among businesses of different sizes and retail customers of different income levels in the KCMSA Assessment Area. SBKC's good small business penetration primarily supports this conclusion, as this product was weighted more heavily.

Small Business Loans

As shown in the following table, the distribution of small business loans reflects good penetration of loans to businesses with gross annual revenues of \$1 million or less. The bank's lending performance to small businesses exceeded the corresponding aggregate data. Although performance trailed the demographic data, the percentage of businesses reflects credit opportunity in the market but does not reflect credit demand. Therefore, the aggregate data is a more accurate standard of comparison.

Distribution of Small Business Loans by Gross Annual Revenue Category						
Assessment Area: KCMSA						
Gross Revenue Level	% of Businesses	Aggregate Performance % of #	#	%	\$(000s)	%
<=\$1,000,000						
2018	81.7	43.5	223	52.7	36,320	40.0

Source: 2018 & 2019 D&B Data; Bank Data; 2018 CRA Aggregate Data; "--" data not available. Due to rounding, totals may not equal 100.0%						

Home Mortgage Loans

As shown in the following table, the distribution of home mortgage loans to individuals of different income levels reflects adequate penetration of loans to low- and moderate-income borrowers. The bank's lending penetration to low- and moderate-income borrowers slightly exceeded aggregate and demographic data in 2019. However, review of 2017 and 2018 revealed that performance varied from year to year. Specifically, lending in moderate-income census tracts trailed aggregate in 2017 and 2018, and lending in low-income census tracts trailed aggregate in 2018. Overall, home mortgage lending reflects adequate penetration.

Distribution of Home Mortgage Loans by Borrower Income Level						
Assessment Area: KCMSA						
Borrower Income Level	% of Families	Aggregate Performance % of #	#	%	\$(000s)	%
Low						
2019	21.2	8.0	12	11.9	1,022	1.4

Community Development Loans

SBKC made an adequate level of community development loans in the KCMSA Assessment Area, considering the bank's resources and business strategies, area competition, and available opportunities. The bank originated or renewed all of its 94 community development loans totaling \$88.5 million in the KCMSA Assessment Area. Out of the 94 loans, 73 were SBA-guaranteed PPP loans made in the second quarter of 2020 promoting economic development in response to the Coronavirus pandemic. The bank also originated loans that primarily served to promote affordable housing and revitalization and/or stabilization. There were no community development loans in the broader statewide or regional area. The following are examples of the community development loans provided in the KCMSA Assessment Area.

- In 2020, SBKC funded a \$14.7 million loan to an organization for the new construction of a project in the assessment area that was meant to revitalize a moderate-income geography, creating a significant number of jobs for low- and moderate-income individuals and retaining local businesses.
- In 2019, the bank originated a \$2.0 million loan to a business for a property providing condominium rentals at rates below affordable housing thresholds established by the Department of Housing and Urban Development.

INVESTMENT TEST

SBKC demonstrated low satisfactory performance under the Investment Test in the KCMSA. Performance under Investment and Grant Activity and Responsiveness to Credit and Community Development Needs primarily supports this conclusion.

Investment and Grant Activity

SBKC has an adequate level of qualified community development investments in the KCMSA. The combined community development investments, both new and remaining from the prior period, including grants and donations, total approximately \$47.9 million. The total amount of new CRA-qualified investments reported was approximately \$18.3 million and consists of numerous bonds toward local municipalities and counties to revitalize or stabilize. The institution also held approximately \$29.5 million in prior period investments and recorded approximately \$116 thousand in donations within the assessment area. The following are examples of investment activity in the KCMSA.

- In 2018, the bank promoted the revitalization and stabilization of a low- or moderate-income geography in Platte County by purchasing a county bond for \$2.3 million to build essential infrastructure.
- In 2018, the bank again promoted the revitalization and stabilization of a low- or moderate-income geography in Wyandotte County by purchasing a special obligation tax revenue bond for \$4.3 million that facilitated improvements for the county infrastructure.

Responsiveness to Credit and Community Development Needs

SBKC exhibits adequate responsiveness to credit and community economic development needs in the KCMSA Assessment Area. While the bank originated an adequate level of qualified investments, the investments all served to revitalize or stabilize county projects and geographies. Examiners noted a lack of investments in the other areas identified as primary community development needs: affordable housing and economic development.

Community Development Initiatives

SBKC rarely uses innovative and/or complex investments to support community development initiatives in this assessment area.

SERVICE TEST

SBKC demonstrated low satisfactory performance under the Service Test in the KCMSA Assessment Area. Performance under Accessibility of Delivery Systems and Reasonableness of Hours and Services primarily supports this conclusion.

Accessibility of Delivery Systems

Delivery systems are accessible to essentially all portions of the institution's assessment area. SBKC operates a comprehensive branch structure in the KCMSA. With 39 branches, only three institutions have more branches in the same area. The SBKC branch structure is substantial given that it operates 6.4 percent of the branches in the assessment area with only 3.8 percent deposit market share. Maps reveal that SBKC covers essentially all areas where competitors are located. SBKC branch penetration or coverage of low-income tracts at 6.5 percent is similar to the 6.0 percent by competing branches. SBKC lags moderate-income tract coverage at 12.9 percent compared to 19.7 percent for competing banks. However, four of the SBKC branches reside on the border of low- or moderate-income tracts, essentially serving that tract as well. The map review also reveals a gap in coverage in Jackson County, which explains a lag in moderate-

income tract coverage. The bank also operates two free-standing ATMs in the KCMSA with one in a low-income census tract and one in an upper-income census tract.

Changes in Branch Locations

To the extent changes have been made, the institution's opening and closing of branches has generally not adversely affected the accessibility of its delivery systems, particularly in low- and moderate-income geographies and/or to low- and moderate-income individuals. Over the review period, SBKC closed a branch in a middle-income census tract and another branch in an upper-income census tract. The upper-income tract closure was due to the closure of a retail store. SBKC then opened a branch on the same block in the same upper-income tract to replace the closure. The net impact of the activity over the review period was a single branch closure in a middle-income tract. The subject branch was adjacent to a group of low- and moderate-income tracts, so there is a modest impact.

Reasonableness of Business Hours and Services

Services, including business hours, do not vary in a way that inconveniences certain portions of the assessment areas, particularly low- and moderate-income geographies and/or individuals. This is consistent with the bank's overall performance.

Community Development Services

SBKC provides a limited level of community development services in the KCMSA. During the evaluation period, officers and employees provided 23 instances of qualified community development services. Service activities significantly decreased from the prior evaluation, when SBKC employees provided 48 services to the assessment area as an intermediate small bank. While SBKC has considerably more resources since becoming a large bank to enact community development activities, resulting performance has declined significantly. The majority of services provided by the bank consisted of activities that provided affordable housing or economic development purposes.

STATE OF MISSOURI

CRA RATING FOR STATE OF MISSOURI: NEEDS TO IMPROVE

The Lending Test is rated: Needs to Improve

The Investment Test is rated: Needs to Improve

The Service Test is rated: Needs to Improve

DESCRIPTION OF INSTITUTION'S OPERATIONS IN MISSOURI

SBKC delineated a portion of the St. Joseph, MO-KS multistate MSA as one assessment area. The delineated portion of this assessment area consists of the entirety of Buchanan County. The bank operates out of 3 branches and 4 ATMs within this assessment area.

Economic and Demographic Data

The Missouri Assessment Area is comprised of 25 census tracts: 1 low-, 7 moderate-, 12 middle-, and 5 upper-income based on 2015 ACS Census data. The following table illustrates select demographic characteristics of this assessment area.

Demographic Information of the Assessment Area						
Assessment Area: Missouri						
Demographic Characteristics	#	Low % of #	Moderate % of #	Middle % of #	Upper % of #	NA* % of #
Geographies (Census Tracts)	25	4.0	28.0	48.0	20.0	0.0

Median Family Income MSA - 41140 St. Joseph, MO-KS MSA		\$59,820	Median Housing Value			\$115,283
Families Below Poverty Level		13.9%	Median Gross Rent			\$702

Source: 2015 ACS and 2020 D&B Data
 (*) The NA category consists of geographies that have not been assigned an income classification.

According to 2020 D&B data, service industries represent the largest portion of businesses in the assessment area at 39.1 percent, followed by retail trade at 14.5 percent and non-classifiable establishments at 13.5 percent. In addition, 58.8 percent of area businesses have four or fewer employees and 82.6 percent operate from a single location. According to Moody's, the Missouri Assessment Area is currently in recession due to the Coronavirus pandemic.

Based on data reported by the Bureau of Labor Statistics, Buchanan County maintained consistently low unemployment rates throughout the review period with a low annual average of 2.9 percent in 2018 and a high of 3.5 percent in 2017. However, as of July 2020, the monthly unemployment rate in Buchanan County increased to 5.7 percent due to the effects of the Coronavirus pandemic.

Competition

There is a moderate level of competition for financial services in the Missouri Assessment Area. According to 2019 FDIC Deposit Market Share data, 14 financial institutions operate 29 branches within the assessment area. Of these institutions, SBKC ranked 8th in deposit market share with 3.6 percent of area deposits.

Community Contact

Examiners reviewed a recent community contact conducted in 2020 with a representative from an economic development organization focused on St. Joseph and Buchanan County. Examiners considered the information provided by this community contact in analyzing the institution's CRA performance. The contact indicated a number of challenges in the Missouri Assessment Area, including affordable housing and access to credit for smaller businesses with between 25 and 500 employees. The contact also stated that, while competition is strong for both affordable housing and small business credit, the community is in constant need of community development opportunities.

Credit and Community Development Needs and Opportunities

Considering information from the community contact, and demographic and economic data, examiners determined that small business and home mortgage loans represent the primary credit needs in the Missouri Assessment Area. Opportunities exist for originating such loans, as indicated by the percentages of small businesses and families in the assessment area, and the growing population in general. In addition, community development needs include affordable housing, economic development, and revitalization and/or stabilization, especially now with the challenges brought on by the Coronavirus pandemic.

SCOPE OF EVALUATION – MISSOURI

Examiners evaluated the bank's CRA performance for the Missouri Assessment Area through a full-scope review of small business and home mortgage lending. This assessment area represents the smallest deposit and lending volume in terms of the assessment areas reviewed and, thus, received little weight in the evaluation. Refer to the overall Scope section for additional details.

CONCLUSIONS ON PERFORMANCE CRITERIA IN MISSOURI

LENDING TEST

SBKC's performance under the Lending Test needs to improve in the Missouri Assessment Area. The bank's Lending Activity and community development lending performance primarily support this conclusion.

Lending Activity

SBKC's lending activity in the Missouri Assessment Area reflects poor responsiveness to assessment area credit needs. In 2019, the bank ranked 82nd out of 195 home mortgage lenders with 0.15 percent market share in the area, which trails the bank's deposit market share for the same year of 4.1 percent. Although the bank did not report 2018 small business loans, examiners found the bank's small business performance was comparable to large bank lenders who owned approximately 0.3 percent of the market share. For comparison, SBKC held 4.2 percent of the deposit market share in 2018.

Approximately 0.3 percent of 2018 and 2019 small business loans reviewed and 3.4 percent of 2019 home mortgage loans reviewed were originated or purchased in this assessment area. This activity consisted of 5 small business loans totaling \$436 thousand and 4 home mortgage loans totaling \$294 thousand. The bank did not have any qualified community development loans in this assessment area. Considering this information, SBKC has shown poor responsiveness to small business and home mortgage credit needs.

Geographic Distribution

SBKC originated a very limited volume of small business and home mortgage loans in this assessment area, and a review of the Geographic Distribution criterion would not result in meaningful conclusions. Specifically, SBKC originated 3 small business loans totaling \$138 thousand in 2018 and 2 small business loans totaling \$298 thousand in 2019. The bank also originated very few home mortgage loans in 2019, with only 4 loans totaling \$294 thousand. Therefore, this criterion was not evaluated.

Borrower Profile

As noted, SBKC originated a combined total of five small business loans in 2018 and 2019 and only four home mortgage loans in 2019 in this assessment area. Therefore, a review of the Borrower Profile criterion would not result in meaningful conclusions and was not evaluated.

Community Development Loans

SBKC has not made any community development loans in the Missouri Assessment Area.

INVESTMENT TEST

SBKC's performance under the Investment Test in the Missouri Assessment Area needs to improve. Performance under Responsiveness to Credit and Community Development Needs and Community Development Initiatives primarily supports this conclusion.

Investment and Grant Activity

SBKC has an adequate level of qualified community development investments in the Missouri Assessment Area, although rarely in a leadership position. The bank made 5 investments totaling \$3.9 million for the revitalization and/or stabilization of the assessment area. All five investments were made in the prior period and still remain on the bank's books to be paid down.

Responsiveness to Credit and Community Development Needs

SBKC exhibited poor responsiveness to credit and community development needs in the Missouri Assessment Area during the review period. The bank's investments did not occur during the review period and carried over from the prior period.

Community Development Initiatives

SBKC rarely uses innovative and/or complex investments to support community development initiatives in this assessment area. The bank did not make any investments during the review period, and the investments on the books from the prior period are routine school bonds.

SERVICE TEST

SBKC's performance under the Service Test in the Missouri Assessment Area needs to improve. Performance under Community Development Services primarily supports this conclusion.

Accessibility of Delivery Systems

Delivery systems are readily accessible to all portions of the institution's assessment area. SBKC operates three branches in the Missouri Assessment Area. Only two other banks operate more branches. The SBKC branch structure is substantial given that it operates 10.3 percent of the branches in the county with only 3.6 percent deposit market share. SBKC's branch distribution covers the city well, and offices are readily accessible to low- and moderate-income geographies. One third of the bank's branches are in low- and moderate-income areas compared to 20 percent for competing institutions. Also, the Lake Avenue branch is across the street from a moderate-income tract.

Changes in Branch Locations

SBKC did not change any branch locations in the Missouri Assessment Area during the review period. As such, this component did not factor into Service Test conclusions.

Reasonableness of Business Hours and Services

Services, including business hours, do not vary in a way that inconveniences portions of the assessment areas, particularly low- and moderate-income geographies and/or individuals, and are generally consistent with the bank's overall performance as previously described.

Community Development Services

SBKC did not provide any community development services in the Missouri Assessment Area during the review period.

APPENDICES

LARGE BANK PERFORMANCE CRITERIA

Lending Test

The Lending Test evaluates the bank's record of helping to meet the credit needs of its assessment area(s) through its lending activities by considering a bank's home mortgage, small business, small farm, and community development lending. If consumer lending constitutes a substantial majority of a bank's business, the FDIC will evaluate the bank's consumer lending in one or more of the following categories: motor vehicle, credit card, other secured, and other unsecured. The bank's lending performance is evaluated pursuant to the following criteria:

- 1) The number and amount of the bank's home mortgage, small business, small farm, and consumer loans, if applicable, in the bank's assessment area;
- 2) The geographic distribution of the bank's home mortgage, small business, small farm, and consumer loans, if applicable, based on the loan location, including:
 - i. The proportion of the bank's lending in the bank's assessment area(s);
 - ii. The dispersion of lending in the bank's assessment areas(s); and
 - iii. The number and amount of loans in low-, moderate-, middle- and upper-income geographies in the bank's assessment area(s);
- 3) The distribution, particularly in the bank's assessment area(s), of the bank's home mortgage, small business, small farm, and consumer loans, if applicable, based on borrower characteristics, including the number and amount of:
 - i. Home mortgage loans low-, moderate-, middle- and upper-income individuals
 - ii. Small business and small farm loans to businesses and farms with gross annual revenues of \$1 million or less;
 - iii. Small business and small farm loans by loan amount at origination; and
 - iv. Consumer loans, if applicable, to low-, moderate-, middle- and upper-income individuals;
- 4) The bank's community development lending, including the number and amount of community development loans, and their complexity, innovativeness, and responsiveness to community development needs; and
- 5) The bank's use of innovative or flexible lending practices in a safe and sound manner to address the credit needs of low- and moderate-income individuals or geographies.

Investment Test

The Investment Test evaluates the institution's record of helping to meet the credit needs of its assessment area(s) through qualified investments that benefit its assessment area(s) or a broader statewide or regional area that includes the bank's assessment area(s). Activities considered under the Lending or Service Test may not be considered under the investment test. The bank's investment performance is evaluated pursuant to the following criteria:

- 1) The dollar amount of qualified investments;
- 2) The innovativeness or complexity of qualified investments;
- 3) The responsiveness of qualified investments to available opportunities; and
- 4) The degree to which qualified investments are not routinely provided by private

investors.

Service Test

The Service Test evaluates the bank's record of helping to meet the credit needs of its assessment area(s) by analyzing both the availability and effectiveness of the bank's systems for delivering retail banking services and the extent and innovativeness of its community development services.

The bank's retail banking services are evaluated pursuant to the following criteria:

- 1) The current distribution of the bank's branches among low-, moderate-, middle-, and upper-income geographies;
- 2) In the context of its current distribution of the bank's branches, the bank's record of opening and closing branches, particularly branches located in low- or moderate-income geographies or primarily serving low- or moderate-income individuals;
- 3) The availability and effectiveness of alternative systems for delivering retail banking services (*e.g.*, RSFs, RSFs not owned or operated by or exclusively for the bank, banking by telephone or computer, loan production offices, and bank-at-work or bank-by-mail programs) in low- and moderate-income geographies and to low- and moderate-income individuals; and
- 4) The range of services provided in low-, moderate-, middle-, and upper-income geographies and the degree to which the services are tailored to meet the needs of those geographies.

The bank's community development services are evaluated pursuant to the following criteria:

- 1) The extent to which the bank provides community development services; and
- 2) The innovativeness and responsiveness of community development services.

SCOPE OF EVALUATION

Time Period Reviewed:	June 5, 2017 to September 29, 2020
Product / Time Period Reviewed: Community Development Loans, Investments, and Services / June 5, 2017 to September 29, 2020 Home Mortgage Loans / January 1, 2017 to December 31, 2019 Small Business Loans / January 1, 2018 to December 31, 2019 Small Farm Loans – Not Reviewed Consumer Loans – Not Reviewed	

List of Assessment Areas and Type of Evaluation			
Assessment Area	Type of Evaluation	Branches Visited	Assessment Area Delineation Since Previous Evaluation
KCMSA	Full-scope	None	Removed Franklin County, Kansas
State of Missouri	Full-scope	None	New
<i>Examination Conducted Entirely Offsite due to COVID-19 Pandemic.</i>			

There are no lending affiliates; therefore, examiners did not review affiliate lending.

SUMMARY OF RATINGS FOR RATED AREAS

Rated Area	Lending Test	Investment Test	Service Test	Rating
KCMSA	High Satisfactory	Low Satisfactory	Low Satisfactory	Satisfactory
MISSOURI	Needs To Improve	Needs To Improve	Needs To Improve	Needs To Improve

GLOSSARY

Aggregate Lending: The number of loans originated and purchased by all reporting lenders in specified income categories as a percentage of the aggregate number of loans originated and purchased by all reporting lenders in the metropolitan area/assessment area.

American Community Survey (ACS): A nationwide United States Census survey that produces demographic, social, housing, and economic estimates in the form of five year estimates based on population thresholds.

Area Median Income: The median family income for the MSA, if a person or geography is located in an MSA; or the statewide nonmetropolitan median family income, if a person or geography is located outside an MSA.

Assessment Area: A geographic area delineated by the bank under the requirements of the Community Reinvestment Act.

Census Tract: A small, relatively permanent statistical subdivision of a county or equivalent entity. The primary purpose of census tracts is to provide a stable set of geographic units for the presentation of statistical data. Census tracts generally have a population size between 1,200 and 8,000 people, with an optimum size of 4,000 people. Census tract boundaries generally follow visible and identifiable features, but they may follow nonvisible legal boundaries in some instances. State and county boundaries always are census tract boundaries.

Combined Statistical Area (CSA): A combination of several adjacent metropolitan statistical areas or micropolitan statistical areas or a mix of the two, which are linked by economic ties.

Community Development: For loans, investments, and services to qualify as community development activities, their primary purpose must:

- (1) Support affordable housing for low- and moderate-income individuals;
- (2) Target community services toward low- and moderate-income individuals;
- (3) Promote economic development by financing small businesses or farms; or
- (4) Provide activities that revitalize or stabilize low- and moderate-income geographies, designated disaster areas, or distressed or underserved nonmetropolitan middle-income geographies.

Community Development Corporation (CDC): A CDC allows banks and holding companies to make equity type of investments in community development projects. Bank community CDCs can develop innovative debt instruments or provide near-equity investments tailored to the development needs of the community. Bank community CDCs are also tailored to their financial and marketing needs. A CDC may purchase, own, rehabilitate, construct, manage, and sell real property. Also, it may make equity or debt investments in development projects and in local businesses. The CDC activities are expected to directly benefit low- and moderate-income groups, and the investment dollars should not represent an undue risk on the banking organization.

Community Development Financial Institutions (CDFIs): CDFIs are private intermediaries (either for profit or nonprofit) with community development as their primary mission. A CDFI facilitates the flow of lending and investment capital into distressed communities and to individuals who have been unable to take advantage of the services offered by traditional financial institutions. Some basic types of CDFIs include community development banks, community development loan funds, community development credit unions, micro enterprise funds, and community development venture capital funds.

A certified community CDFI must meet eligibility requirements. These requirements include the following:

- Having a primary mission of promoting community development;
- Serving an investment area or target population;
- Providing development services;
- Maintaining accountability to residents of its investment area or targeted population through representation on its governing board of directors, or by other means;
- Not constituting an agency or instrumentality of the United States, of any state or political subdivision of a state.

Community Development Loan: A loan that:

- (1) Has as its primary purpose community development; and
- (2) Except in the case of a wholesale or limited purpose bank:
 - (i) Has not been reported or collected by the bank or an affiliate for consideration in the bank's assessment area as a home mortgage, small business, small farm, or consumer loan, unless it is a multifamily dwelling loan (as described in Appendix A to Part 203 of this title); and
 - (ii) Benefits the bank's assessment area(s) or a broader statewide or regional area including the bank's assessment area(s).

Community Development Service: A service that:

- (1) Has as its primary purpose community development;
- (2) Is related to the provision of financial services; and
- (3) Has not been considered in the evaluation of the bank's retail banking services under § 345.24(d).

Consumer Loan(s): A loan(s) to one or more individuals for household, family, or other personal expenditures. A consumer loan does not include a home mortgage, small business, or small farm loan. This definition includes the following categories: motor vehicle loans, credit card loans, home equity loans, other secured consumer loans, and other unsecured consumer loans.

Core Based Statistical Area (CBSA): The county or counties or equivalent entities associated with at least one core (urbanized area or urban cluster) of at least 10,000 population, plus adjacent counties having a high degree of social and economic integration with the core as measured through commuting ties with the counties associated with the core. Metropolitan and Micropolitan Statistical Areas are the two categories of CBSAs.

Distressed Middle-Income Nonmetropolitan Geographies: A nonmetropolitan middle-income geography will be designated as distressed if it is in a county that meets one or more of the following triggers:

- (1) An unemployment rate of at least 1.5 times the national average;
- (2) A poverty rate of 20 percent or more; or
- (3) A population loss of 10 percent or more between the previous and most recent decennial census or a net migration loss of 5 percent or more over the 5-year period preceding the most recent census.

Family: Includes a householder and one or more other persons living in the same household who are related to the householder by birth, marriage, or adoption. The number of family households always equals the number of families; however, a family household may also include non-relatives living with the family. Families are classified by type as either a married-couple family or other family. Other family is further classified into “male householder” (a family with a male householder and no wife present) or “female householder” (a family with a female householder and no husband present).

FFIEC-Estimated Income Data: The Federal Financial Institutions Examination Council (FFIEC) issues annual estimates which update median family income from the metropolitan and nonmetropolitan areas. The FFIEC uses American Community Survey data and factors in information from other sources to arrive at an annual estimate that more closely reflects current economic conditions.

Full-Scope Review: A full-scope review is accomplished when examiners complete all applicable interagency examination procedures for an assessment area. Performance under applicable tests is analyzed considering performance context, quantitative factors (for example, geographic distribution, borrower profile, and total number and dollar amount of investments), and qualitative factors (for example, innovativeness, complexity, and responsiveness).

Geography: A census tract delineated by the United States Bureau of the Census in the most recent decennial census.

Home Mortgage Disclosure Act (HMDA): The statute that requires certain mortgage lenders that do business or have banking offices in a metropolitan statistical area to file annual summary reports of their mortgage lending activity. The reports include such data as the race, gender, and the income of applicants; the amount of loan requested; and the disposition of the application (approved, denied, and withdrawn).

Home Mortgage Loans: Includes closed-end mortgage loans or open-end line of credits as defined in the HMDA regulation that are not an excluded transaction per the HMDA regulation.

Housing Unit: Includes a house, an apartment, a mobile home, a group of rooms, or a single room that is occupied as separate living quarters.

Limited-Scope Review: A limited scope review is accomplished when examiners do not complete all applicable interagency examination procedures for an assessment area.

Performance under applicable tests is often analyzed using only quantitative factors (for example, geographic distribution, borrower profile, total number and dollar amount of investments, and branch distribution).

Low-Income: Individual income that is less than 50 percent of the area median income, or a median family income that is less than 50 percent in the case of a geography.

Low Income Housing Tax Credit: The Low-Income Housing Tax Credit Program is a housing program contained within the Internal Revenue Code of 1986, as amended. It is administered by the U.S. Department of the Treasury and the Internal Revenue Service. The U.S. Treasury Department distributes low-income housing tax credits to housing credit agencies through the Internal Revenue Service. The housing agencies allocate tax credits on a competitive basis.

Developers who acquire, rehabilitate, or construct low-income rental housing may keep their tax credits. Or, they may sell them to corporations or investor groups, who, as owners of these properties, will be able to reduce their own federal tax payments. The credit can be claimed annually for ten consecutive years. For a project to be eligible, the developer must set aside a specific percentage of units for occupancy by low-income residents. The set-aside requirement remains throughout the compliance period, usually 30 years.

Market Share: The number of loans originated and purchased by the institution as a percentage of the aggregate number of loans originated and purchased by all reporting lenders in the metropolitan area/assessment area.

Median Income: The median income divides the income distribution into two equal parts, one having incomes above the median and other having incomes below the median.

Metropolitan Division (MD): A county or group of counties within a CBSA that contain(s) an urbanized area with a population of at least 2.5 million. A MD is one or more main/secondary counties representing an employment center or centers, plus adjacent counties associated with the main/secondary county or counties through commuting ties.

Metropolitan Statistical Area (MSA): CBSA associated with at least one urbanized area having a population of at least 50,000. The MSA comprises the central county or counties or equivalent entities containing the core, plus adjacent outlying counties having a high degree of social and economic integration with the central county or counties as measured through commuting.

Micropolitan Statistical Area: CBSA associated with at least one urbanized area having a population of at least 10,000, but less than 50,000.

Middle-Income: Individual income that is at least 80 percent and less than 120 percent of the area median income, or a median family income that is at least 80 and less than 120 percent in the case of a geography.

Moderate-Income: Individual income that is at least 50 percent and less than 80 percent of the area median income, or a median family income that is at least 50 and less than 80 percent in the case of a geography.

Multi-family: Refers to a residential structure that contains five or more units.

Nonmetropolitan Area (also known as **non-MSA**): All areas outside of metropolitan areas. The definition of nonmetropolitan area is not consistent with the definition of rural areas. Urban and rural classifications cut across the other hierarchies. For example, there is generally urban and rural territory within metropolitan and nonmetropolitan areas.

Owner-Occupied Units: Includes units occupied by the owner or co-owner, even if the unit has not been fully paid for or is mortgaged.

Qualified Investment: A lawful investment, deposit, membership share, or grant that has as its primary purpose community development.

Rated Area: A rated area is a state or multistate metropolitan area. For an institution with domestic branches in only one state, the institution's CRA rating would be the state rating. If an institution maintains domestic branches in more than one state, the institution will receive a rating for each state in which those branches are located. If an institution maintains domestic branches in two or more states within a multistate metropolitan area, the institution will receive a rating for the multistate metropolitan area.

Rural Area: Territories, populations, and housing units that are not classified as urban.

Small Business Investment Company (SBIC): SBICs are privately-owned investment companies which are licensed and regulated by the Small Business Administration (SBA). SBICs provide long-term loans and/or venture capital to small firms. Because money for venture or risk investments is difficult for small firms to obtain, SBA provides assistance to SBICs to stimulate and supplement the flow of private equity and long-term loan funds to small companies. Venture capitalists participate in the SBIC program to supplement their own private capital with funds borrowed at favorable rates through SBA's guarantee of SBIC debentures. These SBIC debentures are then sold to private investors. An SBIC's success is linked to the growth and profitability of the companies that it finances. Therefore, some SBICs primarily assist businesses with significant growth potential, such as new firms in innovative industries. SBICs finance small firms by providing straight loans and/or equity-type investments. This kind of financing gives them partial ownership of those businesses and the possibility of sharing in the companies' profits as they grow and prosper.

Small Business Loan: A loan included in "loans to small businesses" as defined in the Consolidated Report of Condition and Income (Call Report). These loans have original amounts of \$1 million or less and are either secured by nonfarm nonresidential properties or are classified as commercial and industrial loans.

Small Farm Loan: A loan included in “loans to small farms” as defined in the instructions for preparation of the Consolidated Report of Condition and Income (Call Report). These loans have original amounts of \$500,000 or less and are either secured by farmland, including farm residential and other improvements, or are classified as loans to finance agricultural production and other loans to farmers.

Underserved Middle-Income Nonmetropolitan Geographies: A nonmetropolitan middle-income geography will be designated as underserved if it meets criteria for population size, density, and dispersion indicating the area’s population is sufficiently small, thin, and distant from a population center that the tract is likely to have difficulty financing the fixed costs of meeting essential community needs.

Upper-Income: Individual income that is 120 percent or more of the area median income, or a median family income that is 120 percent or more in the case of a geography.

Urban Area: All territories, populations, and housing units in urbanized areas and in places of 2,500 or more persons outside urbanized areas. More specifically, “urban” consists of territory, persons, and housing units in places of 2,500 or more persons incorporated as cities, villages, boroughs (except in Alaska and New York), and towns (except in the New England states, New York, and Wisconsin).

“Urban” excludes the rural portions of “extended cities”; census designated place of 2,500 or more persons; and other territory, incorporated or unincorporated, including in urbanized areas.

SECURITY BANK OF KANSAS CITY

Branch Openings and Closings

2024

During the first quarter of 2024 there were no changes to any Banking Center, ATM, or ITM locations.

2023

During 2023 Security Bank of Kansas City:

- Donnelly College requested we be available on their campus on Tuesdays, from the hours 10 a.m. to 1 p.m. The best way for us to accommodate the request under state banking regulations was to treat the opportunity as a part-time deposit production office. No currency is present, nor are any deposits received. The primary service provided is financial education for students.

2022

During 2022 Security Bank of Kansas City:

- Relocated the 103rd Street Banking Center on the same lot, approximately 100 feet east of the prior location. Address: 10300 Mastin Street, Overland Park, KS 66212. Geo-code: 200910519.08
- Closed one Banking Center in Paola, Kansas where we had multiple offices in the same small town.
 - Wea Street: Closed April 15, 2022. Address 3 E Wea St, Paola, KS 66071. Geo-code: 201211006.01. Census tract income: Middle.
- Closed three Banking Centers in the Mission Corridor where the bank had an overlapping presence.
 - Martway: Closed 7/29/2022. Address: 6040 Martway Street, Mission, KS, 66202. Geo-code: 200910503.02. Census tract income: Middle.
 - ITM allowing many services available via a drive-thru operation was placed on site to mitigate customer impact.
 - Fairway: Closed 8/26/2022. Address: 2701 Shawnee Mission Parkway, Fairway, KS. Geo-code: 200910500.00. Census tract income: Upper.
 - ITM allowing many services available via a drive-thru operation was placed on site to mitigate customer impact.
 - Johnson Drive: Closed 9/30/2022. Address: 5201 Johnson Dr, Mission, KS 66205. Geo-code: 200910503.02. Census tract income: Middle.
 - Lease expiring.

2021

During 2021 Security Bank of Kansas City:

- Opened the Woodland Banking Center at 9900 Woodland Rd, Lenexa, KS 66220.
- Closed the Leawood Banking Center formerly located at 13501 Aberdeen Parkway, Leawood, KS. The location was opened in 2005 based on anticipate

housing and retail growth which failed to materialize after the housing market disruption in 2008. Alternate branches are located within approximately 3 miles.

- Sold three Banking Center locations to Equity Bank in December 2021. The locations are well within Equity's footprint and were not within the strategic branch footprint of Security Bank of Kansas City. The sale agreement contained a non-compete clause, so the free standing ATM is no longer operated by Security Bank of Kansas City. Locations sold were:
 - 602 Edmond St, St Joseph, MO
 - 401 N Woodbine Rd, St Joseph, MO
 - 5348 Lake Ave, St Joseph, MO
- Experienced a temporary lobby closing at our Fairway Banking Center as we redeployed staff to another location due to COVID-19 related staffing issues. The Banking Center operated drive thru services without interruption. Lobby services, such as access to safe deposit boxes, we offered by appointment. The interruption was approximately six weeks from early September, through mid-October.
- Relocated a Banking Center from 6000 Leavenworth Rd, Kansas City, KS to 5235 Leavenworth Rd, Kansas City, KS. The prior facility and parking required significant upgrades. Management felt a new facility offering the same products and services other than safe deposit box rental was the best solution for customers. The new location opened mid-December 2021.

Footnote:

10. A validity edit helps to verify the accuracy of the data reported. An institution's CRA submission that passes all validity edits does not ensure 100% accurate data. True accuracy is determined during the examination process.
11. A record represents one row of data reported to the Federal Reserve Board. This does not in any way represent the number of loans originated or purchased by the institution.

Notes:

SBKC is subject to the Home Mortgage Disclosure Act (HMDA). Data reporting on certain mortgage related transactions is required by the HMDA. The HMDA statement for SBKC may be obtained from the Consumer Financial Protection Bureau's web-site at www.consumerfinance.gov/hmda.
